

TECHNICAL DATA

Chassis	ALS steel twin tube cradle frame
Wheelbase	1465 mm
Trail	116,1 mm
Headstock angle	26.4°
Steering angle	38°
Front suspension	traditional fork, Ø 40 mm
Front wheel travel	130 mm
Rear suspension	swingarm with double shock absorber with adjustable spring preload.
Rear wheel travel	97 mm
Front brake	stainless steel floating disc, Ø 320 mm Brembo opposed four-piston callipers
Rear brake	stainless steel floating disc, Ø 260 mm opposed two-piston callipers
Wheels	aluminium alloy
Front wheel rim	3,50" x 16"
Rear wheel rim	4.00" x 16"
Front tyre	130/90 - 16"
Rear tyre	150/80 B 16"

ELECTRICAL SYSTEM

System voltage	12 V
Battery	12V - 18 Ah

DIMENSIONS

Length	2185 mm
Width	840 mm
Height	1160 mm
Saddle height	780 mm
Kerb weight*	199 Kg
Fuel tank capacity	15 litres
Reserve	4 litres

* Weight of bike ready to ride, will all fluids and no fuel
